### MINDWAVE VENTURES RECOGNISED AS HEALTH TECH LEADER IN 2020 GLOBAL DIGITAL HEALTH 100

*Social purpose health tech company Mindwave Ventures among top innovators revealed as international health technology publication The Journal of mHealth announces their latest **Global Digital Health 100***

**London, 28<sup>th</sup> January 2020:** Mindwave Ventures is in the spotlight as The Journal of mHealth today announce their annual Global Digital Health 100, recognising the most innovative health technology companies from around the world.

Now in its sixth year, the annual Global Digital Health 100 is one of the health tech industry's foremost technology award programmes, celebrating innovation and entrepreneurship. It recognises and supports health technology companies that are demonstrating the greatest potential to change the way that healthcare is delivered.

#### Recognising Innovation and Emerging Technologies in Healthcare

Providing valuable insight on emerging technology trends from across the healthcare continuum, the Global Digital Health 100 has consistently identified early-stage solution providers that have gone on to become some of the world's most successful health technology companies, including Babylon Health, SilverCloud Health, One Medical, and Butterfly Network - making it an essential resource for industry professionals and investors alike.

Commenting on the announcement, Dr Victoria Betton, Mindwave's chief innovation officer, said:

*"We are delighted to be included in The Global Digital Health 100 and recognised as one of the companies within the health tech industry that is shaping the future of healthcare delivery. It's a real honour to see our innovative work across health technology and clinical research being celebrated by The Journal of mHealth, and it's even better to be able to share this recognition with our diverse team."*
